

English

In English, we are reading a novel by David Almond called 'Skellig'. It is a tale of the ordinary and the mysterious, and how they intertwine in the wonder of life. We will also explore the poetry of William Blake.

Music

Music day will focus on playing instruments and exploring harmonies.

French

We are building our basic vocabulary related to our-

Computing

We are learning to programme computers and to write code using the Espresso computer programme.

PE/Sport

We will continue games lessons with Jack on Wednesdays. He will focus on ball skills and games such as hockey and football. We will swim on a Friday afternoon.

Year 5 Term 4

Maths

This term, we will work with numbers smaller than 1, i.e. fractions, decimals and percentages. We are going to learn to add fractions with different denominators and multiply fractions by a whole number.

Trips: A visit to the museum to view art with mathematical influences.

Art

We have a whole week of Maths in Art scheduled for week 4, during which we will be learning about the many ways in which artists and craftspeople have used maths to create beautiful images and objects. We will learn about perspective and scale.

PSHE This term we will focus on all aspects of keeping safe, especially online and build awareness of how to operate safely online.

R.E

In RE, we are learning about how the concept of Salvation is central to the Christian faith, and what this means in practice for Christians as the festival of Easter approaches.
